

RoomRoster^{10.4}

 MagicBox, Inc.[®]

ROOM SCHEDULE SOLUTIONS FULLY AUTOMATED

APPLICATIONS

- Hospitality
- Corporate Board Rooms
- Hospitals
- Universities
- Convention Centers

OVERVIEW...

The RoomRoster 10.4 is a turnkey solution consisting of a bright 10.4 inch screen, built in MagicBox media player, and full content management and database integration software.

With the RoomRoster 10.4 solution you can:

- Display up to date information such as event schedules, conference room meetings, or class schedules.
- Save yourself from having to input information twice since the RoomRoster can pull information that you are already storing.
- Display general announcements, ticker feeds, DivX video clips, and any type of still image.
- Easily manage multiple signs across multiple locations.

MEETINGS

Display the Info You Want, How You Want

With our EZ-Stream database integration software bundled in this solution you are given all the tools you need to enrich your display. EZ-Stream allows you to:

- Completely customize the look and layout of your information.
- Choose colors, fonts, & images that will accompany your information.
- Brand your sign to match your company's style guidelines.
- Pull information from a variety of different data sources.
- Manage multiple RoomRoster units from a single software installation.

More Content to Fit Every Need

The RoomRoster also comes bundled with our basic Aavelin Composer software for creating and scheduling general content. With Composer you can:

- Create full screen announcements for important events.
- Easily manage and include advertisements.
- Use enriching multimedia content such as DivX video clips or crawling text.
- Overlay the date and time to help the viewer find relevance in the information being displayed
