

# HANDY OPTIONS

by MagicBox, Inc.

## Options for your Avelin Messaging system.

### Weather

The Basic Weather Package includes instruments for reading & displaying temperature, wind speed, direction, rainfall, as well as calculation and display of wind chill. The Deluxe Weather Package adds instruments for barometric pressure, humidity, & the calculations for dew point. The weather information can be displayed in the overlay regions at the top or bottom of the screen as either static text or crawling text. Also available with heated rain bucket, heated anemometer, and solar protected temperature and humidity probes.

### TxStream

TxStream enables real time weather forecast data delivery to the Avelin. TxStream pulls N.O.A weather data at regular intervals throughout the day providing for real time, automated updates right on the screen. Forecasts are scrolled along any of the Avelin's (4) overlay regions for easy visibility.

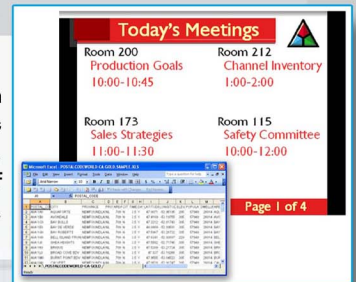

### E-Blast

### VCR/DVD Control

EZ Stream is a Customizable program for interfacing the Avelin to database applications. Useful for displaying conference schedules, meeting room schedules, price updates, Tee Times, etc. EZ Stream saves time by automating the entire process of creating page information and posting the results to your screen.

### EZ Stream

The new VCR/DVD Package allows the Avelin user to control, 2, 4, or 7 consumer VCRs or VCR/DVD combination players via infrared commands. Add video playback to your CG channel the easy and inexpensive way. Use the Timer Events feature on the Avelin to trigger VCRs to play at specific times of the day. Scheduling may be done remotely and in advance for unattended playback.
