

Café

SIGNAGE SOLUTIONS IN SMALL SPACES!

COMPACT FORM FACTOR
Perfect for mounting behind displays!

OVERVIEW

The Café is an economical media player, perfect for those simple and yet important digital displays.

With the Café solution you can:

- Create your own announcements and messages.
- Incorporate text, graphics, ticker feeds and DivX video clips.
- Manage your digital signage network from your PC.
- Schedule each piece of content to play during anytime of the day.

Aavelin Composer is our All-Inclusive Program for Designing, Scheduling, and Programming Everything Related to Your Content.

▲ Multiple design options with easy object property interfaces

▲ Two independent crawl regions for displaying text, graphics, weather, or RSS

◀ True-type font support makes sophisticated page design easy

BUILDING DIRECTORY

SIGNAGE

SIMPLE AND EFFECTIVE

The Café makes it easy to post the content you want and still be as effective as a high end signage solution.

The Café supports:

- 2 Overlay Regions for static or crawling text
- Smooth playback of 540p DivX video clips
- Maximum output resolution of 720p (1280x720)
- Multiple image formats such as, JPG, BMP, PNG, and GIF

MORE CONTENT OPTIONS

Bundle the Café with our standard Aavelin Composer software for creating and scheduling general content or with our EZ-Stream software for incorporating live data.

With Aavelin Composer you can:

- Create full screen announcements for those important events.
- Easily manage and include advertisements.
- Superimpose the date and time to help the viewer find relevance in the information being displayed.

With EZ-Stream you can:

- Create a live stream of data to be displayed full screen, coming from virtually any data source.
- Keep your display up to date with relevant information.
